Allamneni Aravind

Software Engineer

About Me Software Engineer at HSBC Technology India, working in Analytics, Machine Learning and Cloud technologies. I have helped multiple teams in HSBC move away from legacy systems and to adapt the latest technologies and processes. Though Software Engineer by education I am eager to explore career opportunities in Policy Formulation and Implementation, especially in areas of Education, Foreign Affairs and Agriculture.

Education

2012 - 2016, BITS Pilani

MSc(tech) in Information Systems, CGPA: 7.0

Relevant Courses: Current Affairs, Effective Public Speaking, Creative Writing, Organizational Psychology and Human Resource Development

2010 - 2011, Sri Chaitanya Jr College

Science, Percentage: 94%

Experience

June 2016 - present, Software Engineer, HSBC Technology India

Helping HSBC in the massive transformation underway in the company to move towards more efficient and faster processes and tools.

Jul 2015 - Dec 2015, Software Engineer, CA Technologies

Automated unit testing for CAWA Autosys Edition, leading product in Workload Automation used by majority of the fortune 500 companies.

Positions of Responsibility

2013-15, Member of Governing Council, SSMS

- Twice elected to the Governing Council of SSMS while at BITS. SSMS(Society for Student Mess Services Reg. No 32/JHU/2012-13) is registered under Rajasthan Societies Act 1958).
- It's objective is to serve quality and hygienic food to 4000+ students of BITS-Pilani, Pilani. With currently a staff capacity of 200 employees with a combined annual revenue of close to 2 Million USD SSMS has 3 levels of management with the Governing Council being at the top of the hierarchy.
- As a Governing council member I worked on HR policies especially Medical Policy, Educational Policy and Performance appraisal, contract negotiation and day to day operations in the mess.

2013-15, Coordinator-ISA, APOGEE International inter-collegiate technical festival of BITS Pilani

- As a Treasurer of Information Systems Association from Aug-2013 to Aug-2014 planned and handled the budget for the association.
- Responsible for leading and organizing 10 online and on-campus events witnessing 1000+ participation.
- Represented 150+ Computer Science and Information Systems students at the Student Faculty Council an initiative towards enhancing student-faculty interaction at BITS Pilani.

2014-15, Founder-Coding Club, BITS Pilani

- I along with a couple of my friends started Coding Club an assemblage for all the Coding Enthusiasts at BITS Pilani
