Allamneni Aravind

Software Engineer

About Me At HSBC Technology India, I furnish the business leaders with the insights, predictive analytics, and reports enabling effective planning and financial reporting. My job also includes short assignments in multiple teams training them in analytics and cloud technologies, help them internalize these technologies into their everyday work and make them efficient. Keen to pursue a career in public policy and development space, especially in areas of education, entrepreneurship, and agriculture, I am on the lookout for exciting internship or job opportunities. Cooking, cycling, and reading help me clear my mind and relax.

Experience

Policy in Action Fellow, **Young Leaders for Active Citizenship(Hyd-2018)**
○ Identify key issues with respect to data localization, compare the data localization laws across the globe and suggest a suitable framework for India, a live research project with YLAC for a Member of Parliament.

Software Engineer, **HSBC Technology India (June 2016 - present)**
○ Helping HSBC with the massive transformation underway in the company to move towards more efficient and faster processes and tools.
○ I have assisted multiple teams in moving away from legacy systems and into adopting the latest technologies and processes thereby improving productivity and efficiency.
○ I am currently leading a team of three including myself in building an analytics based reporting tool for our Chief Information Officer.

Software Engineer, **CA Technologies (Jul 2015 - Dec 2015)**
○ Automated unit testing for CAWA Autosys Edition, leading product in Workload Automation used by a majority of the fortune 500 companies.

Education

2012 - 2016, Birla Institute of Technology and Science (BITS Pilani)
M.Sc.(Tech.) in Information Systems, CGPA: 7.0
Relevant Courses: Current Affairs, Effective Public Speaking, Creative Writing, Organisational Psychology and Human Resource Development

2010 - 2011, Sri Chaitanaya Jr College
Maths, Physics and Chemistry, Percentage: 94%

Positions of Responsibility

2013-15, *Member of Governing Council,* **SSMS**
○ Twice elected to the Governing Council of SSMS while at BITS. SSMS(Society for Student Mess Services Reg. No 32/JHU/2012-13) is registered under Rajasthan Societies Act 1958).
○ SSMS has a staff of 200 employees with a combined annual revenue of close to 2 Million USD. SSMS has 3 levels of management with the Governing Council being at the top of the hierarchy.
○ As a Governing council member, I have involved in HR especially Medical and Educational Policies and Performance appraisal, contract negotiation and also the day to day operations in the mess.

2013-15, *Coordinator-ISA,* **APOGEE International inter-collegiate technical festival of BITS Pilani**
○ As a Treasurer of Information Systems Association(Aug'2013 - Aug'2014), planned and handled the budget for the association.
○ Elected as the Coordinator(2014-15) and responsible for leading and organizing 10 online and on-campus events witnessing 1000+ participation.
○ Represented 150+ Computer Science and Information Systems students at the Student Faculty Council, an initiative towards enhancing student-faculty interaction at BITS Pilani.

2014-15, *Founder-Coding Club,* **BITS Pilani**
○ I along with a couple of my friends started Coding Club, an assemblage of Coding Enthusiasts at BITS Pilani.
○ Led the club in successfully organizing multiple events conducted during Oasis 2014.
